Overall Length:

29.000 inches

Overall Height:

16.000 inches

Overall Width:

13.500 inches

Wattage Rating:

6.000 kilowatts

Voltage In Volts And Current Type:

120.0 ac

Special Features:

Heater has 1" npt coolant inlet and outlet

General Description:

Consists of a 6kw 120v heating element and tank, a 140-160deg f high limit control, a 100-120deg f thermostat sensing unit, a 120v 1.0" port circulating pump, and a control box assembly

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
