Body Style:

Tubular, flanged

Overall Length:

36.000 inches

Effective Heating Length:

32.000 inches

Heat Control Type:

Heat switch

Thermostat Range:

+25.0/+90.0 degrees fahrenheit

Flange Diameter:

6.000 inches

Flange Thickness:

9.000 inches

Length:

9.000 inches

End Application:

Glo-quartz electric heater

Maximum Wattage Rating In Watts:

40000.0 single voltage

Element Quantity:

5

Phase:

Three single voltage

Supplementary Features:

480 volt with built in 25-90 degree control switch; nema 4 junction box; flange size 6 inches; weight 150 lbs; material: titanium; coil cold section 4 inch long starting at flange

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A01900
