Body Style:

Oven type

Width:

70.0 millimeters

Overall Length:

200.0 millimeters

Element Radiation Specification:

Noninfrared

Length:

150.0 millimeters

End Application:

Control operator

Voltage In Volts And Current Type:

120.0 ac single voltage

Product Name:

Positive temperature coefficient heater unit

Phase:

Single single voltage

Material:

Steel resistance wire

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A01900
