Mounting Position:

Vertical

Specific Gas For Which Designed:

Liquified petroleum gas

Tank Capacity:

40.0 gallons

Environmental Attribute Code:

Water heaters, gas, residential - energy star-heating and cooling - energy efficient products

Special Features:

Water heater must meet the south coast air quality district of southern california for control of nitrogen oxides from residential-type natural gas fired water heaters; hourly input rating 30, 000 btu.

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T285-b
