Maximum Wattage Rating In Watts:

12.0 single voltage

Voltage In Volts And Current Type:

120.0 ac single voltage

Special Features:

Heating cable; uniform thermal output; construction: twin 12 awg copper buss wires, fep insulation jacket, pairing jacket, nickel chromium wire heating element, fep insulation sheath, tinned copper braid; flexible; electric heat; can be cut to length; can withstand up to 395 degrees f saturated steam; zero in-rush at startup

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A01900
