Body Style:

Tubular, screw plug type

Terminal Quantity:

2

Element Radiation Specification:

Noninfrared

Element Connection Style:

Stud type

Terminal Length:

1.000 inches

Heat Quantity:

1

Length:

10.189 inches

End Application:

Food warmer cabinet

Element Quantity:

1

Voltage In Volts And Current Type:

120.0 ac single voltage

Product Name:

Heater (air)

Phase:

Single single voltage

Frequency In Hertz:

60.0

Material:

Nickel alloy sheath

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A01900
