Body Style:

Standard element

Width:

30.5 millimeters

Element Radiation Specification:

Noninfrared

Length:

92.7 millimeters

End Application:

Station emilie

Maximum Wattage Rating In Watts:

1.7 single voltage

Element Quantity:

3

Voltage In Volts And Current Type:

5.0 dc single voltage

Product Name:

Clear heater

Material:

Copper resistance wire and nickel resistance wire

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A01900
