Body Style:

Cable, band or tape type

Effective Heating Length:

600.000 inches

Element Connection Style:

Round bayonet

End Application:

Bear water system, basic expeditionary air resources

Maximum Wattage Rating In Watts:

10.0 single voltage

Element Quantity:

1

Voltage In Volts And Current Type:

120.0 ac single voltage

Product Name:

Therma-linx heating cable

Special Features:

Includes tee connector, led light stick, end connector; output wattage 5, 8, 10 w/ft at 50deg f; continuous maintenance temp 150deg f, maximum exposure temp 175deg f; 16awg bus wire, cross linked semi conductor core, 16awg braid bus, polyolefin dielectric insulation, ground braid, fluoropolymer outer insulation

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A01900
