End Application:

7385926 (53711) fwd propulsion section assembly

Current Rating:

4.200 amperes

Wattage Rating:

500.000 watts

Voltage In Volts And Current Type:

120.0 ac

Product Name:

Small tank heater, tps model

Special Features:

Includes tank, element, thermostat, o-ring, box, power cord, plus "t" package: y-fitting, 0.625 in. Hose barb and extra clamp

Supplementary Features:

Single phase; max. 150 cubic inches; thermostat range: 100.0 - 120.0 degrees fahrenheit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
