End Application:
7385926 (53711) fwd propulsion section assembly
Current Rating:
4.200 amperes
Wattage Rating:
500.000 watts
Voltage In Volts And Current Type:
120.0 ac
Product Name:
Small tank heater, tps model
Special Features:
Includes tank, element, thermostat, o-ring, box, power cord, plus "t" package: y-fitting, 0.625 in. Hose barb and extra clamp
Supplementary Features:
Single phase; max. 150 cubic inches; thermostat range: 100.0 - 120.0 degrees fahrentheit
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A23900
