Body Style:

Finned, tubular, u shaped

Overall Length:

35.187 inches

Length:

35.000 inches

End Application:

Heater, electric duct 201-191537

Product Name:

Element, heating ss

Special Features:

5334 watts; 260 volts; 20.51 amps; sheath watt density (w/in, 2) 54.3; sheath initial length 70.6250in, heated length 65.8750in, material 304sst, diameter 0.4750in; terminal assembly 4082e (with epoxy); finning material 304sst, fins per inch 5; bracket material sst

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A01900
