Body Style:

Finned, tubular, terminal's at each end

Overall Length:

17.750 inches

End Application:

Heater, duct, electric rh h88

Maximum Wattage Rating In Watts:

370.0 single voltage

Element Quantity:

27

Voltage In Volts And Current Type:

450.0 ac single voltage

Product Name:

Heater fin tube

Phase:

Single single voltage

Special Features:

Thickness of the stainless steel is 22 gage

Material:

Stainless steel sheath

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A01900
