Overall Length:

137.000 inches

Overall Width:

24.000 inches

Wattage Rating:

7722.0 watts

Voltage In Volts And Current Type:

115.0 ac

Special Features:

Thermistor controlled heater blanket; twelve independently controlled zones; 12.000 inch min 20 awg lead length; 95 percent tetrafluoroethylene; 5 percent molybdenum disulfide

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
