Overall Length:

108.0 inches

Overall Height:

69.0 inches

Overall Width:

48.0 inches

End Application:

Used for various aircraft

Product Name:

Gse heater

Special Features:

Airflow is up to 6000 cubic feet per minute; up to 6000 btu per hour; 60 gallon fuel tank; engine is a ford v6 4.2 liter; brake horsepower is 120 at 2800

Functional Description:

Supply heated air to aircraft cabin during cold weather

Type/model Designation:

Mark iv coldbuster

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
