Width:

19.4 inches

Heat Control Type:

Thermostat

Unpackaged Unit Height:

17.0 inches

Maximum Wattage Rating In Watts:

12000.0 single voltage

Voltage In Volts And Current Type:

400.0 ac single voltage

Product Name:

Csm hotflow heating system

Phase:

Three single voltage

Special Features:

Heating unit developed to preheat diesel and gas engines that serve multiple applications; thermostat range: fixed, 100-120 degrees f

Frequency In Hertz:

50.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A01900
