Maximum Operating Pressure:

150.0 pounds per square inch

Heating Element Type:

Triple

Overall Depth:

22.750 inches

Overall Height:

31.125 inches

Overall Width:

23.625 inches

Insulated Feature:

Included

Heating Capacity Per Hour:

16.0 gallons

Thermostatic Switch:

Included

Tank Capacity:

16.0 gallons

Water Inlet Connection Thread Size And Series/type Designator:

0.750 npt

Water Outlet Connection Thread Size And Series/type Designator:

0.750 npt

Water Inlet Connection Quantity:

1

Water Outlet Connection Quantity:

1

Heating Element Wattage Rating:

4000.0 upper

Voltage In Volts And Current Type:

480.0 ac

Product Name:

Imperial booster electric water heater

Phase:

Three

Material:

Stainless steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T285-a
