Pump Design:

Two stage

Oil For Which Designed:

Number 3, fuel oil, heaviest grade for which designed

Capacity Rating:

1.65 gallons per hour

Mounting Method:

Flange

Special Features:

For hori flame; h pressure; w/1 nozzle 1.65 gal per hr size 60 degrees angle spray; 1 elec ignition; operating pwr rqmt dc 115v; blast tube will extend a maximum of 5.25 in. Into fire bz; 1 elec stack switch incl

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A512h0
