Ignition Method:

Hand

Current Type:

Dc

Drive Type:

Direct

Accessory Components And Quantity:

Switch, on-off, valve, solenoid

Ignition System Design:

Single

Power Source For Which Designed:

Electric

Fuel Pump:

Not included

Fuel Grade For Which Designed:

3

Capacity In Gallons Per Hour:

2.50 and 0.375

Atomizing Cup Regulating Method:

Metering valve

Flame Control Type:

High-low

Voltage In Volts:

115.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T114-b
