Body Style:

Flange, type

Element Radiation Specification:

Noninfrared

Heat Control Type:

Thermostat

Element Connection Style:

Stud type

Heat Quantity:

1

Maximum Wattage Rating In Watts:

750.0 single voltage

Element Quantity:

1

Voltage In Volts And Current Type:

120.0 dc single voltage

Phase:

Single single voltage

Special Features:

Barbed hose fitting on flange

Frequency In Hertz:

60.0

Material:

Copper alloy sheath or steel sheath

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A01900
