Element Radiation Specification:

Noninfrared

End Application:

Donut machine, belshaw bros., inc., model mk-4006

Maximum Wattage Rating In Watts:

1397.0 single voltage

Voltage In Volts And Current Type:

380.0 ac single voltage

Special Features:

Outfeed element; voltage range from 380 to 440; wattage range from 1397 to 1862

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A01900
