Overall Height:

30.000 inches

Overall Width:

30.000 inches

End Application:

Gaylord ind, inc. Galley exhaust ventilator, bollinger shipyard

Current Rating:

5.000 amperes

Wattage Rating:

500.000 watts

Voltage In Volts And Current Type:

115.000 ac

Special Features:

Gcabinet includes detergent pump and tank; pressure/temperature guage; shock absorber; command center; line strainer; ball valve; check valve; solenoid valve; total enclosure w/ hindged door w/ handle

Material:

Steel

General Description:

60.0hertz; single phase; water temp 140.0-180.0deg f; 1.00in.Connections

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
