Overall Length:

60.000 inches

Overall Height:

1.000 inches

Overall Width:

30.000 inches

End Application:

Mc-130h aircraft

Special Features:

Used during radome repair to apply heat to conform to shape and provide most efficient heat transfer

General Description:

Heating blanket requires two 3 phase, 208 volt lines rated at 30 amps for operation. The 208 volt lines split to provide 120 volts power to the individual heating elements in the blanket

Fsc Application Data:

Miscellaneous heating equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
