Overall Length:

27.000 inches

Overall Width:

4.000 inches

End Application:

Aircraft, hawkeye e-2c; vapor server

Current Rating:

2.600 amperes

Wattage Rating:

300.000 watts

Voltage In Volts And Current Type:

115.0 ac

Product Name:

Model 10994, heating blanket

Special Features:

Fits 30 and 50 lb refrigerant tanks; has thermal cut-off switch to protect against overheating

General Description:

Used in refrigerant type 134a (r-134a) type apps only

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
