General Description:

Media water; 37.5 in.H, 22.0 in.W, 13.0 in.Dp; 150.0 psi; 5.0-50.0 gph; drop pressure 25.0; loop vol 1000.0 gal; steel and copper alloy constr, silver soldered joints; includes drain valve, glass flow indicator, support flame, 45.0 micron 6 in.Membrane filter; conn 3/8 npt int thd, transistorized 1-18 megohm-cm scale; 115v ac, 50/60 hz, single phase 1.5 amps

Specification Data:

81349-mil-s-901c government specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
