**Overall Length:**

19.000 inches

**Overall Height:**

25.125 inches

**Overall Width:**

12.250 inches

**End Application:**

Strategic sealift conversion ships class

**Pressure Rating:**

40.0 pounds per square inch

**Voltage In Volts And Current Type:**

115.0 ac

**Special Features:**

Mounting frame w/4 holes 13.00in.X14.00in. Apart, 0.50in. Dia

**Functional Description:**

Used to add bromine to water system

**Material:**

Plastic and copper and stainless steel

**General Description:**

0-8 gpm cap.; 32.0-120.0 degrees f operating temperature range

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A23900
