Overall Length:

19.000 inches

Overall Height:

25.125 inches

Overall Width:

12.250 inches

End Application:

Strategic sealift conversion ships class

Pressure Rating:

40.0 pounds per square inch

Voltage In Volts And Current Type:

115.0 ac

Special Features:

Mounting frame w/4 holes 13.00in.X14.00in. Apart, 0.50in. Dia

Functional Description:

Used to add bromine to water system

Material:

Plastic and copper and stainless steel

General Description:

0-8 gpm cap.; 32.0-120.0 degrees f operating temperature range

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
