Pressure Rating:

150.0 pounds per square inch

Special Features:

Used in mobile water purification and disinfection system (mofad); one required for model m10-a and two for model m20-a

Material:

Steel

General Description:

Material is carbon steel; vertical in-line centrifugal sand separator followed by a polypropylene fine mesh filter with manual blow off valve

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
