Overall Height:

48.000 inches

Overall Diameter:

14.000 inches

Pressure Rating:

80.0 pounds per square inch

Voltage In Volts And Current Type:

110.0 ac

Product Name:

Deionizer

Special Features:

Min 20psi, maximum 60psi feed pressure; 200 ppm maximum feed salinity; min 2deg c, maximum 40deg c feedwater temp

Material:

Plastic

General Description:

10 gpm deionizer; includes exchange tank, exchange tank adaptor assembly with 1.0in. Fpt inlet and outlet and a resillite bi-color resistivity monitor

Thread Size And Series/type Designator:

4.500-8 buttress

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
