Product Name:

Nanopure

Special Features:

Winfinity base reagent grade water system; produces reagent grade water for all analytical needs (aa, icp, icp/ms, ic and hplc); microprocessor controlled purity monitor and controls; easy to read lcd provides digital resistivity of output up to 18.3 megohm-cm; switch selected display of temperature (in c) and alarm setpoint of output water (alerts you when purity falls below setpoint; type i nanopure; mount type bench; dim: 20 x 24 x 16 in.; 120v, 50/60 hz, 3a; mcn 4610-00-c07-6147

Unit Of Issue Cube:

4.4444 cubic feet

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
