End Application:

Easypure system

Special Features:

Part of barnstead easypure compact deionization systems; cartridge characteristics: organic-free resin (combo of carbon/ultrapure mixed-bed resin); use in final position when toc of <10ppb and high resistivity are required for deionization, distillation or reverse osmosis feed

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T269-b
