End Application:

Reverse osmosis/demineralizer water purification unit model 10500 rod m

Criticality Code Justification:

Feat

Product Name:

Vessel assembly, reverse osmosis

Special Features:

Qitems are being coded as critical to insure source inspection will be performed at the point of manufacture, prior to material receipt by the us navy or other dod components. These items are piece parts or end items in support of vital military hardware necessary to sustain the successful mission of the ships, submarines, and shore stations of the us navy. Critical features including, but not limited to, dimensions, tolerances/clearances, electronic characteristics, and metallurgical properties will bespecified for government q ar (quality assurance representatives) to insure the highest possible degree of quality and reliability of these parts being delivered under navicp contracts;

hydrostatic test pressure 1500 psig

Material:

Steel comp 316l body and glass fiber body

Media For Which Designed:

Water, demineralized

Style Designator:

Inline disposal w/threaded connections

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000
