Mounting Type:

Bracket w/drilled hole top

End Application:

Reverse osmosis water purification unit, 3000 gal/day, model rodm-3

Design Type:

Reusable

Temperature Rating:

100.0 degrees fahrenheit

Maximum Operating Pressure:

125.0 pounds per square inch

Product Name:

Demineralizer water filter

Special Features:

Contains an acid cation and base anion exchange resin. Three of these filters needed for each assembly. Uses replacement filter cartridge p/n 9607-01

Media For Which Designed:

Water

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A24000
