Overall Length:

20.000 inches

Overall Diameter:

4.500 inches

Anticoagulant Chemical:

Sodium polyanethol sulfate

Err Default:

Err default

Load Capacity:

4500.0 grains

Product Name:

Water softener cartridge

Special Features:

2 gpm flow rate; 100 degree f operating temp

Material:

Plastic, polypropylene and plastic, styrene acrylonitrile and wire mesh

Material:

Plastic polypropylene and plastic styrene and plastic acrylonitrile

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T269-b
