Overall Length:

168.0 inches

Overall Height:

32.0 inches

End Application:

Reverse osmosis water purification

Special Features:

20 hp 460v motor, heavy-duty multi stage centrifuge pump, low pressure shut-off with automatic restart, stainless steel pressure vessels, adjustable recycle lines, on/off switch, sample valve, pretreatment interlock input; metric dimensions: length 4267.2mm x height 812.8mm

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
