Product Name:

Plate, cathode, bookcell primary

Special Features:

Oxidizes and disinfects the sewage stream by an electrochemical process; the flow path is 192 inch long, 0.25 inch thick, 10 inch wide; there are 3bookcell safeguards provided that willalarm and shut down the individual treatment units; two identical electricalbookcell circuits are connected in parallel so that they conduct an equal amount of current 25 adc each or 50 adc total at an equal voltage 100-200 vdc

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
