Material Thickness:

0.0790 inches

Center To Center Distance Between Corrugations:

2.666 inches

Corrugation Depth:

0.500 inches

Projection Type:

Annular corrugations

Longitudinal Joint Fastening Method:

Flange bolted

Special Features:

Material 14 gauge steel, zinc coated; 1 ea is equal to two sections which make a full round

Material:

Steel

Shape:

Full round

Specification Data:

81349-mil-p-236 government specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A545y0
