**Material Thickness:**

0.0790 inches

**Center To Center Distance Between Corrugations:**

2.666 inches

**Corrugation Depth:**

0.500 inches

**Projection Type:**

Annular corrugations

**Longitudinal Joint Fastening Method:**

Flange bolted

**Special Features:**

Material 14 gauge steel, zinc coated; 1 ea is equal to two sections which make a full round

**Material:**

Steel

**Shape:**

Full round

**Specification Data:**

81349-mil-p-236 government specification

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A545y0
