Material Thickness:
0.0790 inches
Center To Center Distance Between Corrugations:
2.666 inches
Corrugation Depth:
0.500 inches
Projection Type:
Annular corrugations
Longitudinal Joint Fastening Method:
Flange bolted
Special Features:
Material 14 gauge steel, zinc coated; 1 ea is equal to two sections which make a full round
Material:
Steel
Shape:
Full round
Specification Data:
81349-mil-p-236 government specification
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A545y0
