Material Thickness:

0.0598 inches

Center To Center Distance Between Corrugations:

2.666 inches

Corrugation Depth:

0.500 inches

Projection Type:

Annular corrugations

Longitudinal Joint Fastening Method:

Flange bolted

Special Features:

Two separate pieces are required for 1 24 in long round pipe section; nuts, washers and bolts come with the pipe section

Material:

Steel

Shape:

Full round

Specification Data:

-81349-mil-p-236 government specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A545y0
