| Cross Sectional Shape:                          |
|---|
| Plain round                                     |
| Wall Thickness:                                 |
| 0.120 inches                                    |
| First End Style:                                |
| Plain   |
| Diameter:                                       |
| 1.900 inches                                    |
| Maximum Operating Temp:                         |
| 468.3 degrees celsius                           |
| Second End Relationship With First End:         |
| Identical                                       |
| Construction:                                   |
| Seamless  |
| Maximum Operating Pressure:                     |
| 1500.0 pounds per square inch                   |
| Measuring Method And Length:                    |
| 144.000 inches random and 288.000 inches random |
| Heat Treatment:                                 |
| Normalized and tempered                         |
| Material:                                       |
| Steel   |
| Specification Data:                             |
| 81349-mil-p-24691/2 government specification    |
| Specification Or Standard:                      |
| +11 grade                                       |
| Shelf Life:                                     |
| N/a   |
| Unit Of Measure:                                |
|   |
| Demilitarization:                               |
| No  |
| Fiig:   |
| A004a0  |
| Mil-std (military Standard):                    |
| Mil-t-18165 spec.                               |
