Cross Sectional Shape:

Plain round

Wall Thickness:

0.049 inches

First End Style:

Outside beaded

First End Outside Diameter:

1.000 inches

First End Bead Outside Diameter:

1.134 inches

First End Length From Bead Center To End:

Between 0.220 inches and 0.282 inches

Diameter:

1.000 inches

Second End Relationship With First End:

Identical

Construction:

Seamless

Material:

Stainless steel

Material Specification:

Ww-t-858 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A004a0
