Cross Sectional Shape:

Round

Inside Diameter:

0.750 inches

Outside Diameter:

0.875 inches

Exterior Color:

Natural

Inside Surface Condition:

Smooth

Measuring Method And Length:

36.000 inches

Material:

Plastic phenolic and cotton tube

Material Specification:

Mil-i-24768/16 form tr type fbm military specification single material response tube

Specification Or Standard:

Tr form and fbm type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A54200

Mil-std (military Standard):

Mil-p-79 spec.
