Cross Sectional Shape:

Round

Inside Diameter:

5.000 inches

Outside Diameter:

7.000 inches

Exterior Color:

Black

Outer Covering Environmental Protection:

Weatherproof

Measuring Method And Length:

28.125 inches

Special Features:

W/four 0.375 in. Diameter holes through one wall 9.000 in. C to c and two 1.000 in. Diameter holes on side in line w/twp center holes

Material:

Rubber tube

Media For Which Designed:

Air single response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A54200
