Cross Sectional Shape:

Round

Inside Diameter:

0.250 inches

Outside Diameter:

0.312 inches

Exterior Color:

Natural

Measuring Method And Length:

36.000 inches

Special Features:

Bonded with plastic, phenolic

Flexibility:

Rigid

Material:

Plastic cellulose acetate tube

Specification Or Standard:

1 type and xx grade and tube form and ground or buffed finish

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A54200
