Cross Sectional Shape:

Plain round

Wall Thickness:

0.048 inches

First End Style:

Flange

First End Flange Outside Diameter:

1.335 inches

Welding Method:

Electric resistance

Diameter:

1.125 inches

Second End Relationship With First End:

Identical

Construction:

Straight seamed

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A004a0
