**Cross Sectional Shape:**

Plain round

**Wall Thickness:**

0.035 inches

**First End Style:**

Flange

**First End Flange Outside Diameter:**

3.620 inches

**Diameter:**

3.500 inches

**Second End Relationship With First End:**

Identical

**Construction:**

Seamless

**Maximum Operating Pressure:**

30.0 pounds per square inch

**Material:**

Aluminum alloy

**Material Specification:**

Ww-t-700/4, 0, type 1 federal specification single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A004a0
