Cross Sectional Shape:

Plain round

Wall Thickness:

0.028 inches

First End Style:

Outside beaded

First End Outside Diameter:

3.000 inches

Diameter:

3.000 inches

Second End Relationship With First End:

Identical

Construction:

Seamless

Material:

Aluminum alloy 5052

Material Specification:

Ww-t-787, 0 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A004a0
