Wall Thickness:

0.028 inches

Diameter:

0.188 inches

Second End Relationship With First End:

Identical

Construction:

Seamless

Special Features:

0 temper; 25000 psi min. Tensile

Material:

Aluminum alloy

Material Specification:

Ww-t-700/4 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A004a0
