**Cross Sectional Shape:**

Round

**Inside Diameter:**

1.049 inches

**Outside Diameter:**

1.315 inches

**Burst Test Pressure:**

2020.0 pounds per square inch single response

**Criticality Code Justification:**

Zzzy

**Measuring Method And Length:**

120.000 inches

**Material:**

Plastic polyvinyl chloride tube

**Reference Number Differentiating Characteristics:**

Material will be in accordance with ships parts control center activity hx quality control, manufacturing and testing specifications

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A54200
