**Cross Sectional Shape:**

Plain round

**Wall Thickness:**

0.035 inches

**First End Style:**

Outside beaded

**First End Outside Diameter:**

3.000 inches

**First End Bead Outside Diameter:**

3.164 inches

**First End Length From Bead Center To End:**

Between 0.219 inches and 0.281 inches

**Diameter:**

3.000 inches

**Second End Relationship With First End:**

Identical

**Construction:**

Seamless

**Material:**

Aluminum alloy

**Material Specification:**

Ww-t-700/6, t6, type 1 federal specification single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A004a0
